NORTHWEST REGION

Dear Greg:

This letter is to confirm our conversation of September 21st.

We received seven drums of waste material from J. McKenzie of Hillsboro, Oregon. Apparently he purchased some property that had this material left by the previous owner. You referred him to us for possible reclamation or disposal. The product is spent Acetone from a fiberglass operation that cannot be reclaimed.

Since Mr. McKenzie did not generate the waste, you have authorized disposal at Chem-Security Systems on a one time basis. The normal application process does not apply.

We will dispose of this material on our next load to Arlington.

Sincerely,

VAN WATERS & ROGERS
